SUMMARY

Software developer and AI student with practical experience in building full-stack web platforms, Flutter mobile applications, and computer vision tools. Experienced in leading project development from scratch, coordinating small developer teams, and launching real products to production.

EXPERIENCE

Founding Partner

Agilique Solutions LLP

May 2026 – Present

Nashik, Maharashtra

- Lead software development and technology planning for client projects across web and mobile platforms.
- Build responsive full-stack applications using React, Next.js, FastAPI, and Flutter.
- Set up backend services, databases, and authentication using Firebase and Supabase to ensure stable deployments.

Core Member & Application Developer

360 View Tech

June 2025 – May 2026

Nashik, Maharashtra

- Helped develop PlaceTrix from the ground up, a campus placement app launched on the Google Play Store.
- Built core mobile UI screens, managed app state in Flutter, and connected Firebase for real-time database updates.
- Worked with the design and backend team to fix bugs, optimize app performance, and release updates.

Co-Founder & Member

Team Radiant

Jan. 2025 – May 2026

Nashik, Maharashtra

- Co-founded a student developer group focused on peer learning, open-source projects, and technical meetups.
- Collaborated with peers on hackathon projects, code reviews, and shared GitHub repositories.

SKILLS

Languages: Python, TypeScript, JavaScript, Dart, SQL, HTML/CSS

Frontend & Mobile: React.js, Next.js, Tailwind CSS, Flutter

Backend & Databases: FastAPI, Node.js, Express.js, Firebase, Supabase, MySQL

Tools & Concepts: Git, GitHub, Docker, REST APIs, Computer Vision (OpenCV), Agile Collaboration

PROJECTS

PlaceTrix – Campus Placement Platform | *Flutter, React, Firebase* | [GitHub](#) | [Live](#)

2025

- Built a platform to automate campus recruitment drives, student eligibility checks, and interview scheduling.
- Developed an admin dashboard for college coordinators and a cross-platform mobile app for students.

Certify_Ai – Credential Verification System | *Python, OpenCV, FastAPI* | [GitHub](#) | [Release](#)

2025

- Created a certificate generation tool that adds dynamic cryptographic QR codes for instant online verification.
- Implemented an image-processing module using OpenCV to detect tampered text and modified layouts on certificates.

Legisly – Legal Information Assistant | *Python, FastAPI, React* | [GitHub](#) | [Live](#)

2026

- Built a web assistant that answers legal queries in clear language and points users to relevant statutory sections.
- Created FastAPI backend endpoints to parse uploaded documents and extract key legal points quickly.

EDUCATION

Savitribai Phule Pune University

Bachelor of Engineering in Artificial Intelligence and Data Science

– Pune Vidyarthi Griha's College of Engineering, Nashik

Aug. 2023 – 2027

CGPA: 7.35

HONORS

- **Entrepreneurship Excellence Award (2025):** Recognized by ENSIN Forum for leading a student-led open-source initiative and driving peer collaboration at Pune Vidyarthi Griha's College of Engineering, Nashik.
- **Finalist, RIFT '26 National Hackathon:** Built a graph-based transaction and fraud analysis prototype using Python and NetworkX.
